Mr. V. K. Aravindaksha Menon *(Chief Engineer):* There was an instance in the Parakudy quarry where the labourers have been paid between Rs. 1—8—0 and Rs. 1—14—0, a reduction of one and two annas was made to some of the workmen. The reason for the reduction was that the many labourers came to us offering for smaller wages and we wanted also to increase the number of labourers. So we thought it would be improper to lower the rate to a certain section of the people and a higher wage to those who already there. So small reduction of two annas was made for some of the worken for the quarrying work Parakudy.

Mr. President: Order, order. The time for question and answers has expired.
